Bordeaux, March the 10th 2020

**Object:**

**Acknowledgement of acceptance for a scientific article for the 2020 ECCOMAS Newsletter**

Dear Ms Gaburro,

We, the guest editors of the 2020 issue of the ECCOMAS Newsletter  
([www.eccomas.org/publications/newsletters/](http://www.eccomas.org/publications/newsletters/)) would like to inform you that your article

High order schemes on *crazy* moving Voronoi meshes  
(E. Gaburro, S. Chiocchetti, W. Boscheri)

will be published on the ECCOMAS Newsletter 2020 and will be distributed during the 14th World congress on Computational Mechanics (WCCM XIV) and 8th European Congress on Computational Methods in Applied Sciences and Engineering (ECCOMAS 2020) to be held in Paris in July 2020  
[www.wccm-eccomas2020.org](http://www.wccm-eccomas2020.org).

This is a great opportunity to be read by the large community of mechanical engineers, applied mathematicians from academy and industry which will attend the conference.  
We expect about 4500 participants in Paris!

On behalf of the editor of the ECCOMAS Newsletter 2020,

Raphaël Loubère
